

# EPIC RABBIT CONTROL CHECKLIST

*Your Action Plan for a Rabbit-Free Yard*

## PHASE 1: QUICK START CHECKLIST

---

*Get control of the situation immediately.*

- ☐ **Identify Activity:** Identify all signs of rabbit activity on your property.
- ☐ **Prioritize:** Prioritize areas needing immediate protection.
- ☐ **Select Methods:** Choose 2–3 methods to implement immediately.  
(*Recommendation: Fencing + Habitat Modification + Repellents*)
- ☐ **Establish Routine:** Set up a monitoring routine—weekly at minimum.
- ☐ **Look Ahead:** Plan for seasonal adjustments before they're needed.

## PHASE 2: REGULAR MAINTENANCE SCHEDULE

---

### Weekly Tasks

- ☐ Monitor for new signs of rabbit activity (fresh droppings, new damage).
- ☐ Check fence integrity and repair any damage immediately.
- ☐ Reapply repellents after rain if needed.
- ☐ Keep grass mowed and clear debris that creates hiding spots.

### Monthly Tasks

- ☐ Inspect tree guards and plant protection for damage or displacement.
- ☐ Trim back overgrown vegetation before it becomes rabbit habitat.
- ☐ Check under structures for new burrow attempts.
- ☐ Rotate scare tactics if you're using them.

## SEASONAL ADJUSTMENTS

---

Season	Key Actions
Spring	Reinforce barriers before breeding season; protect new growth and seedlings.
Summer	Maintain garden cleanliness; harvest promptly; monitor for increased activity.
Fall	Protect young trees before winter; clear leaf piles; prepare for bark damage season.
Winter	Monitor bark damage on woody plants; increase protection where needed.
